

## Environmental policy of Industrias GES

INDUSTRIAS GES, S.A. manufactures and sells industrial products transforming raw materials, mostly metal, through the cutting, cold forming and welding.

The management of the company aware that the natural environment is not immune to the man's action, and that man must coordinate his activities so that his own development, not endanger the well-being of future generations, for this reason the management has defined this environmental policy.

This policy will establish a management strategy, which communicated effectively at all levels of the organization, allow us to answer the needs and demands of an increasingly competitive market, taking into account the respect for the protection of the environment, which demands a society more sensitized and informed. His firm will is reflected in the following Declaration of Principles:

1. Understand the full context of the organization, evaluate and control the environmental impacts derived from the development of our activity.
2. Provide and establish efficient environmental objectives, in order to reduce the impact of our activity on the environment.
3. Commit to environmental protection, being the prevention the course to follow
4. Come into effect the environmental legislation and regulations, as well as other requirements that the company subscribes in relation to our environmental aspects.
5. The environmental conditions that result from our activity must be minimized within continuous improvement actions. The reduction of hazardous waste, the responsible and efficient consumption of raw materials and energy, and the prevention of any type of pollution are the objectives of the direction.
6. Communicate, sensitize and train all the personnel of the organization, about our policy, objectives, programs and goals, and about potential or real impacts associated with their job, motivating them to obtain a well done job with benefits for the environment.
7. This policy must be known and understood equally by all people who work in the company and make available to the general public.
8. The management of INDUSTRAS GES, will regularly check the objectives of the environmental policy, as well as the effectiveness of the system of management established to achieve them.
